The previous meeting protocol was approved.

**§6. Semester round**

Master Year 2 – No representatives.

Master Year 1 – During the last course, the course leaders took feedback well. There is not much feedback about the new course, Neurobiology, but there was confusion about when the course should be given, so the schedule was published only one week before start and the teachers were not fully prepared. Some students are taking electives at other faculties and were not so happy with the information about choosing electives not given by the Medical Faculty.

Year 3 – Currently doing the Bachelor thesis projects. There is not

much feedback from the students, everyone seems to be doing fine. The course leader is not very involved.

Year 2 – There is not much feedback about the last course yet. Students found the final exam stressful, because it was an online exam in a new format. A new course just started.

Year 1 – A new course just started. There is a language issue because some teachers don't seem prepared to have lectures in English. The powerpoints and schedule are in Swedish, which is problematic for international students and it makes the communication difficult. Students have also not been informed whether the final exam will be online or on campus. Otherwise, the feedback on the course has been positive.

## §7. Reports

PNM – Currently approving course plans for the new Bachelors and Masters programs.

BRO – Nothing to report.

Program directors – Some elective courses only have pass or fail grades, because this was written in the course plan, which are from before the decision to have a scaled grading system.

International committee – Nothing to report.

Examination committee – Nothing to report.

Utbildings- och studiemiljöutskottet (USU) – Nothing to report.

Study-social committee – Nothing to report.

### *Board positions*

BUR is currently announcing board positions.

### *Statutes*

The statutes are being revised together with the other educational councils, and the last meeting will be on Friday. The new statutes will hopefully get to FUM before the autumn.

## §8. Discussion points

### *Evaluation of the grading system survey*

The results from the survey about grades was presented and discussed. A general trend is that students do not know what is needed to achieve VG, and do not know how to appeal their grades. There was a discussion about how an oral presentation can be appealed and whether it would be possible to film the presentation as evidence.
