

Medicinska Föreningen Lund – Malmö		PROTOCOL	
Cause of meeting StorBUR	Place T180 HSC	Date 2021-11-4	Time 17.15
Secretary Astrid Cole		Adjustment person Vera Nordberg	
Attendance See appendix I			

**§1. Meeting declared open**

Nadja Sand declared the meeting open.

**§2. Approval of the agenda**

Today's agenda was approved.

**§3. Any adjunct checked and attendance list circulated**

Attendance was taken (see Appendix I).

**§4. Selection of adjustment person**

The board chose Vera Nordberg as the adjustment person to approve and adjust the meeting protocol with the chairman and the secretary.

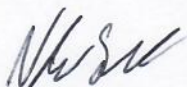

**§5. Approval of the previous StorBUR meeting protocol**

The previous meeting protocol was approved.

**§6. Semester round**

Master Year 2 –  
Thesis work has started and is going well. Not enough feedback was given in the innovation course (the last one before tracks were chosen), but this was resolved when teachers sent out scored rubrics

Master Year 1 –  
Students have finished first course and it has improved since last time. The new course is also going well so far.

  
Nadja Sand  
Chairperson

  
Astrid Cole  
Secretary

  
Vera Nordberg  
Adjustment person

Year 1 –

In general, everything in the course is fine. The teachers have been changing the schedule close to the date where the changes occur. Students have had trouble downloading endnote; previously a seminar was carried out by Jonatan Dereke but this was not given to current year 1 students.

Students have still encountered some problems with their student cards and cannot always access buildings.

*One of the instructors in BIMB10 is misinforming students and doesn't always reply to emails.*

Lectures given by a guest professor were better as they used a microphone and laser pointer. This could be implemented in normal lectures.

Students would like a place to wash and store their lab coats.

Past iRATs are not accessible to students *even though they should be public documents.*

## §7. Reports

PNM –

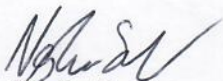

There has been 1 meeting since the last StorBUR. The new course plan for bachelors T4 has been approved. No pass with distinction will be given in the Physiology Course.

BRO –

Nothing to report; however, the national biomed meeting will be held in a week where all BURs in Sweden will meet.

Program directors –

A problem where the SSN of students were left out in GK and sent to all masters students in an email was taken seriously. Some questions from the grading survey might be included in future course evaluation. Some discussion about giving students example past papers was had, and may be problematic due to privacy concerns even though it was generally a good idea.

  
Nadja Sand  
Chairperson

  
Astrid Cole  
Secretary

  
Vera Nordberg  
Adjustment person

informatör and course equivalent is Medicinisk grundutbildning.

Board Game night will be held on 11/17 at Locus.

*No other reports were given.*

## §8. Discussion points

### **Science Evening**

Science evening is an event that happens yearly to showcase future career paths after their degree. People with a similar degree that work in different fields speak on their career and life choices. Suggestions were taken for possible speakers. The overall consensus was that meeting attendees would like to see a wide variety of speakers from different fields (academia, life science, entrepreneurship, pharmaceuticals, forensics, and more). A range of education levels and ages amongst the speakers would also be appreciated.

### **Discrimination prevention and equality**

There will be a focus on inclusion of people with different backgrounds and on making things available in English.

People from an international background are much more lost about the university system in Sweden. An introductory seminar on how the system works may be of benefit.

*Biomed students are very young compared to other programs and many students feel that they get treated like high schoolers. We would like more respect from teachers since we are adults.*
